

Halse's true Fables

Why there has been many  
mysterious deaths

About a week ago I saw  
a hairy, beastly, animal-like person  
diving toward me it looked  
like a werewolf. When I finally  
got away I [it] became a humane  
form. I looked closer and saw  
Dale K— standing there. He  
said he realized what had  
happened and said he had  
turned into a werewolf many moons  
ago. His forefinger is now  
deformed. Next time I see the  
werewolf I will grab a knife  
and stab it through the heart.
